

Camp and Center Lake Rehabilitation District

Annual Meeting

Saturday - August 22, 2009

9:00 a.m. to 11:00 a.m.

Salem Town Hall

9814 Antioch Road, Highway 83

Salem, WI 53168

Special points of interest:

- Commissioner Election
- Flash Flood
- New Equipment
- Guest:

Summerset Marine

The Board will be available to discuss/answer any issues not covered on the agenda after the conclusion of the meeting.

2009 Annual Meeting Agenda & Rules

Boating Regulations

Harvesting & Herbicide Update

Equipment Update

2008 Meeting Minutes

2010 Budget

Important Phone Numbers and Web-sites

Camp and Center Lake

Pursuant to WI. St. Statue 65.90

Annual Meeting Agenda

1. Call to Order
2. Pledge of Allegiance
3. Approve Minutes from August 23, 2008, Annual Meeting
4. Harvesting Report
5. Herbicide Report
6. Election of Commissioner
7. Treasurer's Report
8. Budget Hearing—Voting on items over \$10,000
9. Voting on Adoption of 2010 Budget
10. Shoreline Protection
11. New Equipment
12. High Water Management
13. Shoreline Cleanup
14. Water Patrol
15. Date for 2010 Annual Meeting
16. Adjournment

ID to Vote

All property owners and renters who are residents of the lake district. No more than two non-resident property owners are eligible to vote. Proof of residency and non-residency must be shown upon entrance to the meeting by one of the following:

- Real estate tax bill
- Driver's license
- Gas bill
- Electric bill, or
- Telephone bill

Meeting Rules

In order to get through the agenda, meetings have to be conducted in an orderly fashion. The Board will follow Robert's Rules of Order. We have to limit the time anyone can comment or speak so that there are opportunities for all.

The Chairman has the duty to follow these rules so that the important items are addressed.

Please review the enclosed materials and note the areas where you have a question. For example, if you want an explanation of a particular item, please put it in your question so everyone can understand your concern.

When recognized, please clearly state your name and address first - then your question, so that the secretary can record your concerns.

Thank you!

Election

An election will be held at the Annual Meeting to fill one position created by the expiring term of Tom O'Brien. Tom will be running for re-election.

Contact Dean Hintzman at 847-417-6068 for information or to have your name placed on the ballot. Nominations will also be taken from the floor.

2008 Annual Meeting Minutes

The by-laws and the agenda require consideration and approval of last year's minutes. The minutes are attached to this notice. The state statutes require a vote on the budget, which is also enclosed. The minutes from August 2008 will help you understand where our money goes. Approval of the budget is required to remain in

compliance with state law and continue to receive grants for harvesting machinery and other projects that improve our lakes.

Many projects are multi-year. You can follow our progress by reading the minutes from last summer's meeting.

By Tom O'Brien

Boating Regulations

Boating on Camp Lake and Center Lake is subject to Chapter 20 of the Town of Salem ordinances and Chapter 30 of the Wisconsin State statutes.

Highlights of those regulations are posted at every launch and briefly summarized as follows:

- No wake from 7:00 pm to 10:00 am
- No picnicking, no camping, and no fires in launch areas

- Waterskiing and tubing counterclockwise in traffic lanes only
- No wake within 200 feet of shore
- It is recommended that all boaters wear PFDs at all times
- Avoid power launching

Public Trust Doctrine

The Public Trust Doctrine is the basis for the legal rule that all navigable waters are “common highways and forever free”. The owners of land on lakes and rivers are “riparian owners”, who have some rights to the waters they border, such as the right to erect and use a private pier. However, the Wisconsin Supreme Court has ruled that in general, the public’s rights to use our lakes and rivers are primary and the riparian owners’ rights are secondary. These rights include access.

2010 Annual Budget

The state statutes require a vote on the budget, which will be presented by Charles Walker and is enclosed. The line items are categorized so that they are easy to understand.

Approval of the budget is required to remain in compliance with state law and continue to receive grants for harvesting machinery and other projects that improve our lakes.

Thank You!

Thank you - to The Wisconsin Association of Lakes, which CCLRD is a member, for their years of advocacy work and especially in getting the “Clean Lakes” bill signed into law on April 14th. The law prohibits the display, sale, and use of lawn fertilizer containing phosphorus or phosphate which enhances weed growth and provides the nutrient to feed the floating “Duck Weed” in our channels.

**Many projects
are multi-year.
You can follow
our progress by
reading the
minutes from
last summer’s
meeting.**

Erosion & Shoreline Protection

Over the last year CCLRD, in conjunction with lake associations, has completed the two most common shoreline erosion applications, the riprap and fiber rolls. The riprap was completed on the public beach in Center Lake Woods. Riprap is a blanket of appropriately sized stones, fitted to the slope and shape of the shoreline, extending from the toe of the slope to a height needed for long term durability. Riprap is flexible and not impaired by slight move-

ment from settlement.

The 2nd erosion control, fiber roll, was completed at the public beach in Camp Lake Oaks. Fiber rolls are cylindrical tubes composed of coconut husk or excelsior fibers bound together with coconut or jute twine, or plastic netting. The fiber roll product protects the bank by stabilizing the toe of the slope and by trapping sediment from the sloughing bank. Cuttings and herbaceous riparian plants

By Doug Hughes

are planted into and behind the coiled fiber rolls. The roll decomposes after 6 to 10 years, and the riparian vegetation will stabilize the lakeshore.

If you are concerned with your shoreline erosion, feel free to drive by and view the projects at Center Lake Woods and Camp Lake Oaks beach areas.

The DNR website is a great place to start with any specific questions you may have.

The 45 Minute Flash Flood

By Linda Valentine

June 19th delivered us a flash flood of very newsworthy proportions. Long time residents could not recall a flash flood as spectacular. A downpour lasting only 45 minutes affected almost all residents!

The extreme water volume has sparked an interest in all the policies and procedures and general information about the "check valves" on our lakes. Visits were made to the Camp Lake and Center Lake Dams on a regular basis. Instead of changing the Center Lake Dam,

and reducing the spillway affect that was naturally occurring in Center Lake, the gate was left as it was. This allowed the water to spill over the gate and gate wings and created a 30ft span for the water. Changes to the gate would have reduced that span by at least 10ft. In the end, Center Lake reached a "below flood level" earlier than Camp Lake which did not reach below level until July 5th.

Saturation of this magnitude has affected our shorelines. Once you lose the shoreline it

is nearly impossible to reclaim what is lost. That's why adherence to the "SLOW NO WAKE" is so very important to us all.

Equipment Update

By Dennis Faber

NEW CUTTER

Our new cutter is expected to be ready for delivery the end of July. The manufacturer, Aquarius Systems, has been extremely busy filling orders as the Wisconsin Waterways Commission did not fund any harvesting grant money in 2007 which created an abundance of orders which were placed in 2008 for 2009 delivery.

NEW TRUCK

The new truck is here, but how can you miss it. It will soon sport the CCLRD logo!

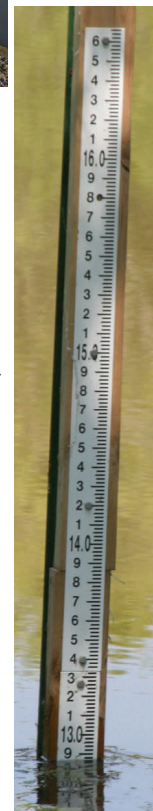

Herbicide Update

By Dean Hintzman

The 2009 treatment of Eurasian Water Milfoil was completed on May 20th. The current sponsored cost-shared method for EWM treatment is a granular form of 24-D which is applied at the maximum rate allowed by the State. This year the Board expanded its research of the liquid form of 24-D from 35 acres to 50 acres for both Camp and Center Lakes.

HARVESTING REPORT

The winter of 2008 -09 was severe with ice forming early and lasting long, abundant snow cover caused concern for oxygen depletion as our lakes vegetation died. Predicting how this would effect vegetation growth in 2009 had many believing our lakes would be void of any substantial growth of Eurasian Water Milfoil or any other aquatic species as has happened in the past with simi-

lar winter conditions. Mother Nature once again taught us that those predictions and history could be wrong because as soon as the ice left the lakes predominant temperatures were favorable for Milfoil to grow. On Camp the north bay and the south lake proper were showing abundant patches of growth early and the same was evident on Center's north and south bays. When herbicide treatment occurred May 20th those conditions had

changed as the Milfoil had disappeared. Harvesting began June 6th, but stopped later in June due to the severe storm that caused flooding. Harvesting resumed on July 6th with one cutter moving to Center Lake. After the June 19th flood Milfoil flourished from the nutrients washed into the lakes. Even the shoreline areas that were treated with herbicide are effected. "You can't fool Mother Nature" and you also can't predict what she will do!

CCLRD Meetings

The CCLRD has quarterly board meetings that are held at the Salem Town Hall. Notice of these meetings is posted at the Town Hall, Camp Lake Post Office, Trevor Post Office, and on the CCLRD web-site

www.cclrd.org.
